

Participate
in the Space Academy,
accelerate your start-up
on the road to maturity!

Join our Space Academy Helsinki, Finland

3-4 June 2019

Coinciding with the EBAN Annual Congress

CALL OPEN The Space Academy is a two-day event for European space-tech entrepreneurs to accelerate their business.

Day 1: An intense day where entrepreneurs can improve their skills and get insights from experts on various topics, with six parallel workshops as well as one-to-one coachings and roundtable meetings.

Day 2: Panels and keynote sessions with space actors and investors, involving regional industry for cross-clustering. Pitching from 10 start-up companies (coached by SpaceUp experts) to this audience for high-level feedback.

All accepted entrepreneurs are welcome to join the Space Academy workshops during the first day on six great topics by prominent experts:

- Investment readiness
- Crowdfunding
- Hot trends in artificial intelligence and robotics
- Business models
- European funding for young SMEs
- European Space ecosystem

All participants can attend both days and get ample chances for broad networking.

10 selected most advanced companies will be entitled to receive funding and certain individual high-level services for free.
